Annex 3. SWOT analysis

SWOT ANALYSIS

STRENGTHS

- There are no direct competitors because no one offers a similar product in Catalonia.
- Strong network of local musicians.
- Our product is designed not only for established musicians but also for amateurs.
- Our product can be a substitute to music schools that are often too expensive.

WEAKNESSES

- Being new in the market, we still don't have a strong brand image.
- Lack of network in possible professors and guests.
- Lack of entrepreneurial skills (social media marketing) for which we will need to invest.

OPPORTUNITIES

- A lot of stakeholders offer grants for education (European Union) and culture (Caixa - Art for Change)
- The music market is getting more and more competitive and musicians need to improve their skills in personal branding and entrepreneurship.
- The business of summer camps is increasing. In 2018, 50% of the summer camps saw an enrollment increase comparing to the previous year (source: https://campminder.com/camptrends/).

THREATS

- Musicians often struggle financially and might not be able to pay for our service.
- As our product is new and innovative, competitors might arise after the first years of activity.
